

REDUCE REQUIRED MAN-HOURS

Schedule and retrieve tachograph files remotely, without requiring manpower for each vehicle.

COST EFFECTIVE

With remote tachograph download, download files remotely, from both the tachograph's memory and the drivers' cards, without leaving the office.

INCREASED PRODUCTIVITY

Increase your fleet's availability even during file collecting period.

TIME EFFECTIVE

Our tachograph download module allows you to download the tachograph files from your office without visiting the vehicle and collecting them from each vehicle one by one.

HOW IT WORKS?

The administration's card is inserted in a card reader that is connected to a company's PC in the office. All vehicles with installed tachographs will be able to remotely access this company card for authorisation.

Tachographs that can be read with FM devices:
SIEMENS VDO 1381 (version 1.3A and above)
Stoneridge (version 7.0 and above)
EFAS (EFAS-4 or newer versions)
ATOL "Drive Smart" tachograph
